New colours for panel and skirting board !

Irrespective of the way you view your motorcycle, the Journey, with its aerodynamic qualities developed by "Target Design", ensures a safe trip and a dynamic performance.

On every tour or at motorcycle meetings.

Leak-proof: specially incorporated seals do not let any moisture in. Space: with two elastic loops in each shell, the case is easily packed.

Unique: the integrated new coloured skirting board protects in the event of minor bumps and accidents.

The box shell of course has a double-wall design and is made of a high-quality shock-resistant plastic and the panel is lacquered in the new colour „arctic“.
